

Sponsorship Opportunities

Note from Jordan & Alin

Local businesses are at the core of our mountain community. However, the Teton region could not thrive without the immigrants from around the world who have come to work and make Jackson their home. There is a symbiotic relationship and deep interdependence between local businesses and immigrant communities here in the Tetons.

While an estimated 20% of the Teton County population are immigrants, we don't see them included in local services and resources, community processes, or leadership spaces. At Voices, we believe that when immigrant families are truly involved in all that Teton County has to offer, and feel like they belong here, we'll see a net good for our community.

We need your help to build this vision of a more inclusive Teton region. I hope you'll consider joining our team of co-conspirators building belonging with immigrant families through our business sponsorship program.

Thank you for all you do for our community. Gracias. Mulțumesc.

Jordan Rich *Alin Yovits*

About Voices

Teton County is the most unequal county in the United States - and its not just due to wealth disparity. The marginalization of immigrant communities and lack of social cohesion in the Teton region creates a community where a large percentage of the population is excluded from experiencing true community belonging. Voices believes that to develop social cohesion within the Teton region, we must generate social capital with immigrant communities. Through a hybrid consultancy model, Voices brokers relationships between local entities and immigrant communities in order to build belonging in the Tetons.

Vision

Voices Jackson Hole envisions a Teton region where immigrants no longer live at the margins, but at the heart of our community.

Mission

Voices Jackson Hole engages and empowers the immigrant and limited English speaking communities of the Teton region.

Voices' Programs

Voices' programs are designed to build social capital with immigrant communities.

Outreach

Voices offers a personalized, first language communication network with immigrant families in the Teton region.

Inclusion

Voices partners with community entities to ensure that immigrant communities have a voice in community processes through research.

Empowerment

Voices supports the growth and development of immigrant leaders to achieve their personal vision of success.

Our Network

24

different nationalities

18

different languages

550

immigrant households

425

families with children

1,100

individuals connected with
per week

Sponsorship Impact

Visibility: Our sponsors are publicized through social media, our newsletter and website, and at local events - generating access to hard to reach segments of our community that Voices is at the heart of.

Recruitment: Our sponsorship program supports employers reaching immigrant communities when they have a job opening through promotion via our Outreach network.

Employee Benefit: Voices will provide resources and enrollment support to register immigrant employees as members of Voices where they'll receive personalized information weekly about local resources and services, have access to community navigation support, be included in local decision making spaces and have opportunities for leadership development.

Net Good: Our sponsors are helping create a community where immigrants have a voice and feel like they belong.
